Large Print Volume
Bigger Build Volume for Volume Production and Big Parts

Dual Extruder
Double the production capacity thanks to the dual extruders

Remote Connection and Control
You can control your device via local network or internet through Wifi-Ethernet Connection

Rigid Body Structure
Thanks to its specially designed durable body structure, build plate does not require calibration or bed levelling process

Closed Print Environment
Easy printing high shrinkage materials with hot print environment
EFFORTLESS PROFESSIONAL 3D PRINTING EXPERIENCE WITH MATTERSHAPER® SALUTE

Features

Print Head  Dual Printhead
Print Technology  Fused Filament Fabrication (FFF)
Build Volume  350 x 300 x 300 mm
Nozzle Diameter  0.4 mm (Different Nozzle Diameters and Hardened Steel Nozzle Optional)
Maximum Extruder Temperature  300°C
Maximum Bed Temperature  120°C
Build Chamber  40-50°C
Materials  ABS, PLA, ASA, PETG, NYLON, PC-ABS, Carbon Fiber
Minimum Layer Resolution  20 micron in 0.4 mm Nozzle
XYZ Axis Motion Resolution  6.5 6.5 2.5 micron
Maximum Printing Speed  150 mm/s
Printing Platform  Borosilicate Glass
Connections  Wifi-Ethernet-Internet-Camera-Usb Remote Control and Monitoring
Weight  32 Kg
Warranty  2 year
